Thermal Sytems / Accessories Foot Mounting ILLEFUSSTT06K

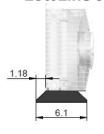

This foot mounting option is available on the Low Line coolers 03,06 and 08.1 Set consists of 2 foot brackets with mounting material.

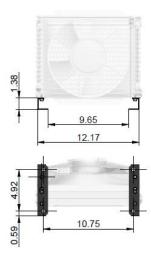

LowLine 03

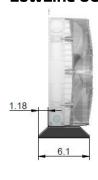

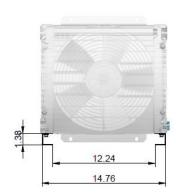

LowLine 06

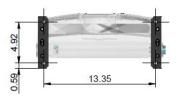

LowLine 08

order number	description	fits on cooler type			weight
		LL03 (AC, DC)	LL06 (AC, DC)	LL08 (AC, DC)	[lbs]
ILLEFUSSTT06KU00	mounting feet kit ASA-LL 06	•	•	•	0,81

Characteristics

bracket material steel

Corrosion Protection

comparable to C3 short (ISO 12944), Ri3 (ISO 4628-3)

Delivery Content

ery Content				
foot mounting bracket	2x			
mounting material	included			

This data sheet and the corresponding scale drawings are to be used as a general guideline and technical overview of our products. Please contact us if more exact information is needed. As we are constantly improving our products, their characteristics, dimensions and weights may also change, although we do our best to incorporate these changes continually, as a assumes no liability for any information therein, any errors, omissions, misprints, nor any direct or indirect damages, losses or costs resulting therefrom. Any cooling performances and general technical values indicated in this catalogue are measured at a test bench according to asa testing procedures or calculated, based on such tests. Due to different conditions in testing and application environments the performance may also vary by +/-15% Because there is no standardized testing procedure, tests used by other manufacturers could have different results. Therefore we recommend all products to be checked under the system operating conditions. This is also true for vibrations and mechanical stress as well as for pressure peaks and thermal stress and any other relevant factors. General tolerances according to DIN ISO 2768-vL. General tolerances for casted parts according EN ISO 8062-3 (DCTG 10). Tolerances for rubber parts are according to SIO 3302-1 (class M4-F+C). The tolerances of welding seams are defined by quality group D according to EN ISO 10042, if it is not specified on the actual scale drawing or data sheet. In addition to that we point out that any data sheet and corresponding scale drawing is no substitution for the manual.
